BestRun EV

Dealer Commercial Handbook

Apex Series Launch Edition - Authorized Dealers Only

1. Introduction

This handbook sets out the commercial terms, pricing structure, and ordering process for the BestRun EV Apex Series. It applies to all authorized BestRun EV dealers effective from the Apex Series launch date. Please keep this document accessible to your sales and ordering teams.

2. Dealer Tiers

BestRun EV operates a three-tier dealer network. Tier determines base margin, co-marketing budget, and minimum stock commitment.

Tier	Annual Purchase Volume	Base Margin	Co-Mktg Budget	Min. Stock (Apex)
Silver	< EUR 150,000	12%	EUR 1,500 / year	3 units
Gold	EUR 150,000 - 400,000	15%	EUR 4,000 / year	8 units
Platinum	> EUR 400,000	18%	EUR 9,000 / year	15 units

Note: Tier is assessed annually on 1 January based on the prior calendar year's net invoice value. New dealers joining within 6 months of the Apex launch are provisionally assigned Silver tier with a 6-month review.
